Diet: Filter feeder

Conservation status: Least Concern

Lifespan: 1-5 years

Weight: 2-10 grams

Scientific name: *Grantia compressa*

Did you know?

- Despite their simple appearance, purse sponges can regenerate lost parts and even re-form after being broken into pieces.
- Purse sponges can contract their bodies to expel waste water, giving them a unique 'squeezing' appearance. They are hermaphroditic, meaning individua...
